

SEPTEMBER 27th 2023

The first International Consumer Purchase Data Symposium

Hosted by Statens Serum Institut

The Human Exposome Assessment Platform (HEAP) project and Statens Serum Institut (SSI) is delighted to welcome you to the first International Consumer Purchase Data (CPD) Symposium.

During the Symposium, international experts will share their research on the various uses of Consumer Purchase Data, and the benefits and challenges they face in the process. With topics ranging from practical uses of CPD during outbreak investigations, to assessing chemical exposures and more, the Symposium will touch upon the vast array of ways CPD can be used to assess public health.

Following the presentations, attendees can join a panel discussion with the speakers to explore ways to address inconsistencies in naming conventions, and to discuss the future of CPD in public health and in research.

Event information

On-line registration link: [Available until Tuesday 26th September 2023](#)

Venue: Statens Serum Institut, Jernesalen, Building 206, Room 126, Artillerivej 5, 2300 Copenhagen, Denmark

Date: Weds 27th September 2023, 12:30-17:00 (CEST)

Symposium Agenda

Time (CEST)	Session and speaker
12.30 - 13.00	Check in and welcome
13.00 - 14.20	Session 1
13.00 - 13.10	Opening and welcome Joakim Dillner, Karolinska Institutet, Sweden
13.10 - 13.20	Consumer data epidemiology and precision prevention Frederik Trier Møller, Statens Serum Institut, Denmark

European Human Exposome **NETWORK**

SEPTEMBER 27th 2023

The first International Consumer Purchase Data Symposium

Hosted by Statens Serum Institut

13.20 - 13.40 (15 + 5 min)	Consumer Purchase Data experiences from the LoCard study Mikael Fogelholm, University of Helsinki, Finland
13.40 - 14.00 (15 + 5 min)	Dietary patterns in UK Consumer Purchase Data Dr. Michelle Morris, University of Leeds, United Kingdom
14.00 - 14.20 (15 + 5 min)	Identification and prioritization of chemical co-Exposures using Consumer Purchase Data Dr. Kristin Isaacs, Environmental Protection Agency, United States of America
14.20 - 14.40	20-min coffee break and networking
14.40 - 15.40	Session 2
14.40 - 15.00 (15 + 5 min)	Consumer chemistry data pipeline Thor Grønborg Junker, Statens Serum Institut, Denmark
15.00 - 15.20 (15 + 5 min)	Consumer Purchase Data to aid outbreak investigations Luise Müller, Statens Serum Institut, Denmark
15.20 - 15.40 (15 + 5 min)	SMIL Cohort: Consumer Purchase Data and register outcomes Kathrine Kold Sørensen, North Zealand Hospital - Hillerød, Denmark
15.40 - 16.00	20-min coffee break and networking
16.00 - 17.00	Panel discussion
16.00 - 16.40 (40 min)	Naming conventions and other challenges to Consumer Data research Frederik Trier Møller, Statens Serum Institut, Denmark
16.40 - 17.00 (20 min)	Wrap up and closing remarks Frederik Trier Møller, Statens Serum Institut, Denmark

At 19:00, there will be a social dinner for the speakers, HEAP project team, and invited guests. (Organiser: Caroline Eves, crev@ssi.dk)
